ELECTRONIC MEDIA REQUIREMENTS

The FTP Software used in previous years is no longer a valid method of transmitting files. FTP Users should begin following the steps outlined in “WEB FILING”. This applies to all tax years.

1. WEB FILING

The Kentucky Department of Revenue (DOR) offers a secure web site as a preferred method of submitting the Reporting of Annual Employee Wage and Tax Information. Beginning in 2003, DOR began offering the Web as a viable alternative for submitting annual employee wage & tax reports. Using the web site is an ideal alternative as a means to submit the wage and tax reports to DOR. Also, if for some reason a CD or disk is rejected by us, the Web has become a popular method for employers to submit corrected reports.

DOR's Web Site is here! Check out our web site at
<http://revenue.ky.gov/electronicsservices.htm>

The underlying philosophy behind using the web site is that the data is already being created electronically. It only makes great business sense to send this information securely via the Web rather than putting it on a CD or diskette, then paying a third party deliverer. In the past, the DOR has had to return media asking for a corrected report from the employer / transmitter.

DOR is excited about using the web because it not only streamlines the processing of the wage and tax information for us but it offers an easy and secure way to meet the filing requirements for the employer!

HOW THE WEB SITE WORKS

The web site utilizes Microsoft's SSL technology (Secure Socket Language) to create a secure connection between the client PC and our Web Server. Using 128 bit encryption, files are transferred to our servers and then processed. This service is provided **at no cost** and only requires the client PC to have Internet Explorer, or any other compatible web browser. There are no hardware restrictions and no software installations required.

To use the web site, a PIN is required, which DOR will assign when the employer declares its intention to send annual wage & tax reports via the web. ***The PIN does NOT expire. The PIN assigned for use with the FTP Program can also be used to log onto the web site, however the FTP program will no longer be a valid method of transferring files.***

Once the user has logged onto the web site, the employer can select files from any location accessible to that PC, and transfer it to the DOR web server. It is important to note that the file layout for using the web is exactly the same as filing by tape, cartridge, CD, and diskette. Therefore, switching to this new method of transferring files will require no changes in the methods for creating the files.

After the transfer, DOR will run validations against the file to determine that it is a valid file format. Then, DOR will notify the transmitter within 2 hours, via email, stating the success or failure of the validations.

WEB SITE SECURITY

The Federal government mandates that strong security measures are established when handling Federal tax information. Since the incoming wage and tax information via the Web may contain Federal tax information, DOR has designed and controls the entire process with a high level of security. From the client PC to the Web Server, SSL is used to encrypt all data transfer, using 128 bit encryption. This process is entirely safe! After the file is transferred to our servers, it is encrypted again to provide security against internal access to the file. The file never resides on our servers unencrypted.

To log onto the web site, a combination of your Federal Employer Identification Number (FEIN) and a DOR assigned Personal Identification Number (PIN) must be used in order to establish secure connection with the DOR server. Plus, a series of accountability and audit trails are maintained by the DOR upon connection to further control access. The DOR is confident in the level of security with using the Web.

HOW TO GET STARTED USING THE WEB

Preparing your office and personal computer to use the web site requires no hardware or software installations. The only requirements are having Internet Explorer or some other compatible web browser and a DOR assigned PIN.

1. To get your PIN, complete Form 42A808 - Request Form for Authorization of Submission of Annual Employee Wage & Tax Reporting via THE WEB and send to DOR.
2. The DOR will assign you a PIN and clarify Web procedures and specifications upon declaring your intention to submit annual wage & tax information via the Web. Some information as to system specifications, network and contact information must be provided to the DOR. ***Please Note: It is important to get your system / network administrator involved ASAP so as to ensure that you have the proper capabilities. Please notify & work with your system / network administrator up front to ensure your success.***

AUTHORIZATION TO FILE VIA THE WEB

The employer / transmitter must contact the DOR, using Form 42A808 – Request Form for Authorization of Submission Via WEB, to declare intentions to submit via the Web and obtain the current WEB specifications. The employer must be prepared to provide the following information:

1. Name, Address and Federal Employer Identification Number (FEIN) of organization or firm requesting to enable Web Site Access.
2. Name, title, telephone number and email address of person to contact regarding the request for setup of Web Site Access.
3. Estimated number of employees to be reported.

Please complete the attached Form 42A808 and return to DOR ASAP to get started!

FREQUENTLY ASKED QUESTIONS AND ANSWERS

- Q.** My file has employees who have more than one RS record with the same state code, due to the employees paying multiple local taxing areas. My W2 information file (CD, Diskette, or Web Filing) continues to be denied due to this error but I don't know how to correct it.
- A.** The Kentucky Department of Revenue does not require that you report the local tax information; therefore, the RS record that contains ONLY local tax information can be deleted. Make certain that the RS record that remains in your file is the RS record that contains the state information. There can only be one RS record with the same state code per RW record in your file.
- Q.** I sent the Kentucky Department of Revenue an exact copy of the file that I sent to the Social Security Administration. The Social Security Administration accepted my file, but the Kentucky Department of Revenue denied my file (CD, Diskette, or Web Filing) stating that the RW record is not in the correct sequence, the state RS record could be missing.

- A. Although the Kentucky Department of Revenue follows the federal specification format this does NOT mean that a duplicate copy of your federal media is acceptable. There are differences in the data requirements and some differences in procedural requirements between the federal and state. The state record RS is a mandatory record for the Kentucky Department of Revenue but optional for the federal entities, it MUST be included in the file that is sent to the Kentucky Department of Revenue.
- Q. My W2 information file (CD, Diskette, or Web Filing) was denied stating that specific lines have “invalid character length.” My network administrator/technical staff verified that each line in the file is 512 characters in length; this is the length that is required in the specifications. I don’t understand how the line length can be verified as acceptable before the file is sent but the Kentucky Department of Revenue states that it is not correct.
- A. When a file is created on a mainframe server and transferred to a personal computer, the trailing spaces can be dropped, which causes invalid record length. Make sure your network administrator/technical staff views the file from your personal computer before submitting the corrected file. You may place an “X” in the 512 position of each line to retain the trailing spaces. If you are using a software package that automatically creates your file you will need to contact the software vendor for assistance.
- Q. Once I submitted my file via the Web, I received a message stating that a confirmation e-mail would be sent within 2 hours. It has been more than 2 hours and I have not received the confirmation e-mail, what do I need to do?
- A. Make certain that the e-mail address that was entered for use in the confirmation information process was correct. If the e-mail address entered was incorrect you will not receive a confirmation e-mail and will need to contact the Kentucky Department of Revenue @ 502-564-7287 for confirmation. If the e-mail address was entered correctly and it has been more than 2 hours you will need to contact the Kentucky Department of Revenue @ 502-564-7287 to report this.
- Q. I am a payroll company that submits wage and tax information for several companies via Web Filing. I am prompted to enter the employer FEIN; however, I have multiple employers on one file. Which employer FEIN do I enter, or do I have to enter each one individually versus all in one file?
- A. You may submit multiple employers within one file. Enter the first employer FEIN in the file on the page that requests the employer FEIN.
- Q. My W2 information file was returned to me with this error, “CR CR”, “< >”, “< CR >”. What does this mean?
- A. A carriage return/line feed is a record delimiter. If you include record delimiters (CR-carriage return, LF-line feed) in the file, they MUST follow the last character of each record except the RF record (carriage return in position 513 and line feed in position 514). The ASCII decimal value for a carriage return is 13 and line feed is 10, they MUST be in this order. Do NOT place a record delimiter before the first record of the file. Do NOT place record delimiters after a field within a record.
- Q. Is it necessary to apply for a PIN for Web Filing each year?
- A. No. The PIN is valid as long as your Federal Identification Number remains the same. If your Federal Identification Number changes you will need to apply for a new PIN with the Kentucky Department of Revenue.
